FOREWORD

The Fifth Population and Housing Census was undertaken from 2nd to 18th March, 1998 throughout the country. For this purpose, the whole country was delimited into manageable census areas i.e., blocks, circles, charges and districts. Maps of all these census areas were prepared and supplied to the field staff to ensure full coverage. The field staff engaged from the Provincial Government Departments were imparted thorough training before the census operation.

To monitor field operation, control rooms at census district/tehsil levels were established. Close supervision of census work through verification process by the supervisors was also laid down. A massive public awareness programme was launched to build confidence and to educate the people about the census procedures and its importance through electronic and print media.

The provisional results of the 1998 Census have already been released in the form of Bulletin-1 by the Federal Minister for Finance, Economic Affairs & Statistics in a press conference held on 8th July, 1998. This bulletin presents provisional figures at provincial level with further breakdown to division, district and tehsil level. The population of each Municipal Corporation, Municipal Committee, Town Committee and Cantonment has also been given under the respective Tehsil.

According to these results the population of North West Frontier Province is 17.555 million as against 11.061 million in 1981 showing an overall percentage increase of 58.7. It constitutes 13.4 percent of the total population of Pakistan, which has slightly increased from 13.1 percent in 1981. The population of this province has increased at an average annual growth rate of 2.75 percent as compared to the national average of 2.61 percent. There is a modest decline in the growth rate of NWFP which has come down from 3.32 percent in 1981 to 2.75 percent in 1998.

The population of this province since 1951 is given as under :

<i>Year</i>	<i>Population</i>
1951	4,587,120
1961	5,752,432
1972	8,392,323
1981	11,061,328
1998	17,554,674

The population density i.e., persons per sq. kilometer has increased to 235.6 persons per sq. kilometer as compared to 148.4 in 1981.

The urban population in the province has increased from 15.1 percent in 1981 to 16.9 percent in 1998 at an average annual growth rate of 3.46 percent. Peshawar is the biggest city of NWFP with the population of 0.988 million followed by Mardan (0.245 million) and Mingora (0.174 million). These three major cities account for 47.32 percent of total urban population and 8.01 percent of the total population of NWFP.

The Census is a gigantic exercise of immense national importance. All concerned Ministries/Divisions and the Provincial Government played a vital role and fully cooperated in carrying out this important national task in a smooth manner. It has been a matter of great satisfaction that no serious complaints were recorded during the operation. Some minor complaints were however received which were resolved locally.

The Armed Forces supported the Population and Housing Census work on 100 percent basis. They maintained a close liaison with the civil set up at all levels by establishing census support centres at Province, Division, District, Tehsil and lower level. I extend my gratitude to all the Armed Forces and their officers/staff involved in this exercise.

The most arduous work of enumeration was done by the enumerators and their supervisors. I owe a deep debt of gratitude to all those who worked to make the Population and Housing Census 1998 a success.

Finally I thank the officers and staff members of the Population Census Organization for their relentless efforts to complete the census successfully.

The figures given in the following table are provisional and subject to change after processing of individual census returns in the coming months.
